

Hey, you!

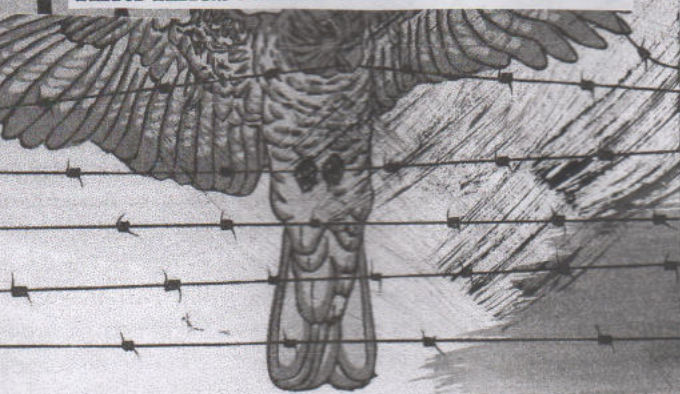

If you're reading this flyer, you chose to support a political project instead of financing places and dynamics purely devoted to commercial profit, as many of those hipster places that invaded this city. So, we want to tell you where your money is going! The money collected here (selling t-shirts, info leaflets, food and drinks, etc.) ends up in a solidarity fund that supports some anti-capitalist political projects, anti-racist, anti-fascist, anti-authoritarian struggles, and people who have chosen to subvert the current social order, built on power dynamics towards the least ones and exploitation of man by man and on earth. This money is for supporting comrades deprived of freedom and affected by repression by national states for their ideas, their practices and for struggling against today's society. In these years we have sustained, within an international mutual aid network, collectives and campaigns of political solidarity, as well as independent counter-information media networks (like Radio Onda Rossa and Radio BlackOut in Italy). This solidarity fund also decides to support experiences of solidarity within prisoners and projects of criticism on the prison system itself.

In a few words, if you have this flyer in your hand you have chosen to support a path, an idea, a tool that closely supports struggles and practices, beyond all borders, to try to overturn and re-imagine together this infamous world in which all

of us live!
